

GUANZONG (ALEX) ZHONG

San Diego, CA | (858) 336-9603 | guanzongzhong@gmail.com

EDUCATION

University of California San Diego – Rady School of Management Master of Science in Business Analytics

San Diego, CA
Jul 2025 – Dec 2026 (Expected)

- Coursework: Business Analytics, SQL and ETL, AI-Assisted Customer Analytics, Experiments for Business Analytics, Pricing Analytics, Fraud Analytics, GenAI for Business

University of Warwick

B.Sc. in Mathematics, Operational Research, Statistics & Economics (MORSE)

Coventry, UK
Sep 2022 – Jun 2025

- Relevant Coursework: Linear Statistical Modelling with R, Games and Decisions, Python for Data-Analytic Tasks, Mathematical Programming, Mathematical Economics, Probability for Mathematical Statistics

WORK EXPERIENCE

Guangzhou Sci & Tech Financial Innovation Investment Holding Co., Ltd. Assistant Fund Manager

Guangzhou, China
Sep 2024 – Oct 2024

- Supported the fund manager in daily fund operations by organizing materials related to fund setup, subscriptions/redemptions, dividend distribution, and liquidation processes.
- Used Excel to consolidate, update, and reconcile NAV, cash flow, and ledger data, supporting routine data maintenance and basic analysis.
- Prepared operating summaries and presentation materials by organizing product information, business updates, and periodic data for internal reporting.
- Contributed to an equity investment overview deck and built simple Python/Excel visualizations to improve the presentation of market data.

GF Xinde Investment Management Co., Ltd. Assistant Fund Manager

Guangzhou, China
Jun 2024 – Sep 2024

- Collected and organized policy updates and market information across healthcare, TMT, and other sectors to support equity investment research.
- Supported project tracking and background-material preparation for investment opportunities in advanced manufacturing, healthcare, energy materials, TMT, and emerging consumption.
- Assisted with due diligence materials, meeting notes, and investment memoranda, including summarizing financial data and comparable company information.
- Contributed to the Shan Gao Holdings Group project by organizing company, industry, and competitive information for internal evaluation.

Thermo Fisher Scientific

Supply Chain Performance & Customer Loyalty Analytics

San Diego, United States
Mar 2026 – Jun 2026 (Planned)

- Developed predictive models linking supply chain performance to customer loyalty, identifying key operational drivers of retention.
- Built customer churn risk models and designed segmentation frameworks to enable targeted account management strategies.
- Generated data-driven recommendations to improve customer retention, integrating model insights with business context.

ACADEMIC PROJECTS

MGTA455 Machine Learning for Business Analytics – UC San Diego Customer Churn Prediction and Credit Card Offer Optimization

Jan 2026 – Mar 2026

- Worked on two applied cases, S-mobile and FiTech, addressing practical problems in customer retention, response prediction, and offer optimization.
- Applied Logistic Regression, MLP, Random Forest, and XGBoost to predict churn risk and offer response, comparing models on both accuracy and interpretability.
- Integrated CLV, campaign cost, customer segmentation, partial dependence analysis, and variable importance to support retention actions and credit card offer design.

Statistical Analysis with R – University of Warwick

Sep 2022 – May 2023

Scores: 86/100, 94/100, 95/100

- Built probability models and simulated multi-stage experiments, then cleaned and analyzed data using R.
- Served as team leader for a 3-person group and visualized results using bar charts and box plots.

Citibank – Summer Analyst Program – Shanghai

Jul 2021 – Aug 2021

Team Leader

- Led a 9-member team to 1st place in a simulated investment analysis competition and received a recommendation letter from Citibank.
- Conducted comparative analysis of China Telecom, China Unicom, and China Mobile and coordinated the final team presentation.

SKILLS & ADDITIONAL

Languages: Mandarin (native), English (fluent) – GRE: 330, Cantonese (fluent)

Technical Skills: Python, R, SQL, Microsoft Office (Excel, PowerPoint, Word), Data Visualization

Coursework Focus: Machine Learning, A/B Testing, Pricing Strategy, Customer Analytics, Fraud Detection, Large-Scale Data Analysis
